

Study information

Hello,

You live in a neighbourhood that is changing – and we want to know what matters to you. What contributes to a good life in your neighbourhood? What might still be missing?

Your opinion matters!

We would like to invite you to participate in our survey. It concerns your experiences with the neighbourhood, your sense of well-being and your living environment. You can respond with ease with a click of the mouse on your computer or on your smartphone. You don't have to compose long texts or anything like that.

Participation is still possible until the end of August.

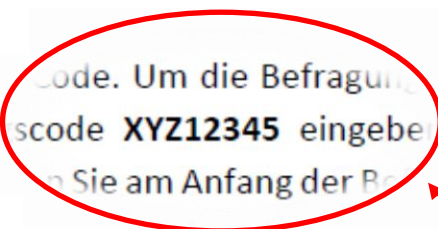

How can you participate?

To participate in the survey, please click on the following link

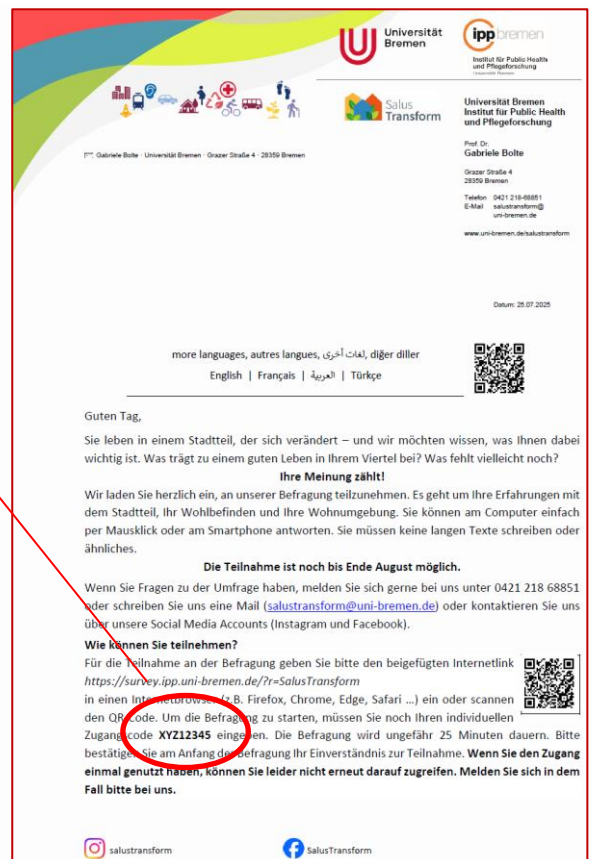

<https://survey.ipp.uni-bremen.de/?r=SalusTransform>

or enter it into an Internet browser (e.g. Firefox, Chrome, Edge, Safari, etc.). You can also scan the QR code on the letter you received from us with your smartphone.

To start the survey, you must enter your individual access code. This can be found at the bottom left of the first page of the letter.

The survey will take approximately 25 minutes to complete. Please confirm your consent to participate at the beginning of the survey. **Once you have used your access, you will, unfortunately, not be able to access it again. If this happens, please contact us at 0421 218 68851 (10:00-15:00) or salustransform@uni-bremen.de.**

Where did we obtain your address?

For the survey, we are working with the residents' registration office (Einwohnermeldeamt) in your city, which has provided us with the addresses. This provision of data only takes place if the project – like ours – is in the public interest, adheres to strict scientific principles and guarantees compliance with data protection regulations (Art. 6 [1] 1 lit. e GDPR in conjunction with Section 13 Bremen Implementation Act for the EU General Data Protection Regulation [BremDSGVOAG], Section 46 Federal Citizens' Registration Act [BMG]). The purpose of data processing is to contact you regarding participation in our above-mentioned research project. Your participation is voluntary. If you do not participate, you will not suffer any disadvantage as a result.

What will happen to your information?

Your personal data (name and address) and information from the survey will, of course, be treated as strictly confidential and stored separately on a secure server. Information about certain personal attributes – such as your age or your level of education – is only used in the evaluation to distinguish between the life situations of different population groups. All information is converted into numbers and stored separately from your personal data. We can only find out who provided the information with considerable effort using your personal access code (pseudonymisation). Your personal data will be deleted after 6 months. Therefore, revocation and deletion of your data from the survey are only possible up to 6 months after participation (anonymisation). Your data will be handled in accordance with the EU General Data Protection Regulation (GDPR). The legal basis for processing is personal consent (Art. 6 [1] lit. a, Art. 9 [2] lit. a GDPR).

Your participation in the survey is very important for the success of the study. This is because we will only be able to obtain a complete picture of the living conditions in your district if as many residents as possible who receive our letter complete the questionnaire.

If you have any questions, would like to reactivate your account or are interested in measuring your movement and sleep, please contact us by telephone on 0421-218 68851 or by email at salustransform@uni-bremen.de. Many thanks for participating!

Kind regards

Prof. Dr. Gabriele Bolte

Dr Justus Tönnies

Information on data protection:

With regard to address data, you have the right to the disclosure of information held about your (Art. 15 GDPR), its correction (Art. 16 GDPR), deletion (Art. 17 GDPR), restriction of processing (Art. 18 GDPR) and the right to lodge an objection thereto (Art. 21 GDPR) based on the EU General Data Protection Regulation. You can exercise your data protection rights until your personal data is deleted here: Prof. Dr. Gabriele Bolte, salustransform@uni-bremen.de. If you have any further questions or complaints regarding data protection, please contact the data protection officer at the University of Bremen: Referat 06, Bibliothekstraße 1-3, 28359 Bremen, Germany, datenschutz@uni-bremen.de. Every data subject has the right to lodge a complaint with a data protection supervisory authority if they believe that the processing of data relating to them violates data protection regulations. The right to lodge a complaint may be exercised in particular with a supervisory authority in the Member State of the place of residence of the data subject or of the place of the alleged infringement.
